MEMORANDUM TO: Chief, RAI

25X1

FROM: Chief, Photo Section,

25X1

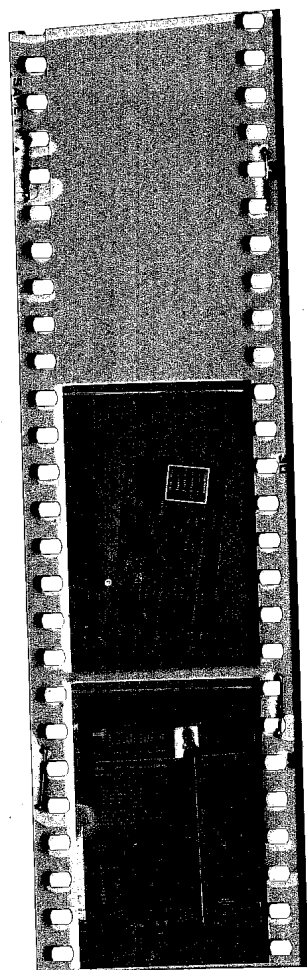

SUBJECT: Film Analysis

1. Test were made on one roll of 35mm Plus-x film which had been cashed in Korea for approximately six months.
2. This film was used to copy documents and at the same time a new roll of film was used. The condition were the same, both in exposure, speed and lighting. The two rolls of film were developed at the same time in D-76 at 68° for 15 min.
3. Results from the test show that the film was not damaged either by age or moisture.
4. For your information and comparison we are enclosing your film and our test roll for your files.
